

R. R. ENTERPRISES

SERVING INDUSTRY SINCE 1979

Introduction

R. R. Enterprises is a company involved in import and distribution of different chemicals for rubber and plastic industries in India. Headquartered in Mumbai, the company operates a national network with 3 regional offices and warehouses. The company first ventured into rubber chemical industry with import of adhesives and rubber sheets. As the years went by, we have expanded our product range into plastics, personal care and pharmaceutical industries as well. After more than a quarter of a century, R. R. Enterprises has made tremendous progress in supplying quality products at an affordable price to Indian companies enabling them to manufacture products of international standard.

Our Principals

3M India Ltd.

for their fluoroelastomers, per fluoroelastomers, speciality elastomers, polymer processing additives, fluoroplastic materials, etc.

AM Inter-Trade LLP

for various products like resins, silane coupling agents, cross linking agent and speciality chemicals.

Coal Fillers Incorporated

Austin Black 325 is produced from a high quality, low volatile bituminous coal. It is a dry, finely divided powder recommended for use as a pigment and filler in a wide variety of rubber and plastic products.

Coating and Compounding Chemicals

for their various grades of glycerides and glycol based resins manufactured in North India
