

Product: FINESTER 1650

CAS Number: 31566-31-1 (and) 9004-99-3

INCI Name: Glyceryl Stearate (and) PEG 100 Stearate

Description: FINESTER 1650 is a blend of non-ionic surfactants. Designed to be used as a self-emulsifier, emollient, thickener in acidic systems with a wide pH tolerance range from 3.5 - 10.

Specifications:

Appearance	White flakes
Acid Value	5.0 Max.
Saponification Value	90 - 100
Iodine Value	3.0 Max.
Melting Point	55 ± 5°C
Moisture Content (KF)	2 Max

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

Suggested Uses:

- Can be the sole emulsifier for mildly acidic O/W creams & lotions and other O/W electrolyte products.
- A versatile O/W emulsifier mainly suited for non-polar oil phases.
- Can be used in wide range of formulations from antiperspirants & deo's, baby care, conditioners, facial make up, self-tanner, sun care, sprayable emulsions etc.

Storage: To be stored in original packing in a shaded warehouse away from heat & direct sunlight.

Shelf Life: One year from the date of production if stored under above mentioned storage conditions in unopened packaging.

Packing: 25kg paper bag laminated HDPE

Additional Information: MSDS \ Non-Allergen \ Non-GMO \ HAACP certificates available upon request
