

Product: FINESTER CC 8010

CAS Number: 73398-61-5 **EINECS:** 277-452-2

INCI Name: Capric Caprylic Tri Glyceride

Description: FINESTER CC 8010 is a mixed ester primarily of caprylic (C8) & (C10) acids. It is a fully saturated medium-chain triglyceride with unique application as a pharmaceutical excipient & cosmetic emollient .

Specifications:

Appearance	: Clear liquid
Acid Value	: 1.0 Max.
Saponification Value	: 330 - 345
Iodine Value	: 1.0 Max.
Color (APHA)	: 50 Max

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

Suggested Uses:

- It is water resistant with high stability, spreadability and is oxidatively stable.
- Excellent plasticizer & emollient for skin creams & lotions.
- Aids in the dispersion of colorants thus finding applications in color cosmetics like lipsticks, foundations & other color cosmetics.
- Also used as a solvent/delivery vehicle for active compounds and as masking agent in perfumes.

Storage: To be stored in original packing in a shaded warehouse away from heat & direct sunlight.

Shelf Life: One year from the date of production if stored under above mentioned storage conditions in unopened packaging.

Packing: 50kg & 190kg HPDE drums.

Additional Information: MSDS \ Non-Allergen \ Non-GMO \ HAACP certificates available upon request
