

Product: FINESTER MG 9500

CAS Number: 31566-31-1 EINECS: 215-359-0

INCI Name: Glyceryl Mono Stearate (NSE)

Description: FINESTER MG 9500 is a low HLB, high purity distilled mono-glyceride obtained from vegetable origin raw materials. It is used as a primary emulsifier in conjunction with a variety of other auxiliary emulsifiers

Specifications:

Appearance	White powder
Acid Value	3.0 Max.
Saponification Value	175 - 190
Iodine Value	3.0 Max.
Melting Point	70 ± 5°C
Monoester Content	95 % Min

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

Suggested Uses:

- Acts as an excellent emulsifier, co-emulsifier, opacifier, bodying agent in antiperspirants, sun care, color cosmetics, hair colorants, depilatories, shampoos, nail care, shaving products, body washes, styling aids etc.
- Due to its high monoester content, formulations having Finester MG 9000 show enhanced stability against varied conditions.

Storage: To be stored in original packing in a shaded warehouse away from heat & direct sunlight.

Shelf Life: One year from the date of production if stored under above mentioned storage conditions in unopened packaging.

Packing: 25kg paper bag laminated HDPE

Additional Information: MSDS \ Non-Allergen \ Non-GMO \ HAACP certificates available upon request
