

Product: FINESTER 7000

CAS Number: 1323-39-3 EINECS: 215-354-3

INCI Name: Propylene Glycol Mono Stearate

**Description: FINESTER 7000 is an ester derived from vegetable origin raw materials.
It is an emollient & opacifier with melting point near to that of the body temperature.**

Specifications:

Appearance	White/Off-White powder
Acid Value	3.0 Max.
Saponification Value	150 - 170
Iodine Value	3.0 Max.
Melting Point	45 ± 5°C
Monoester Content	90 % Min

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

Applications:

- It acts as a bodying agent, emulsifying agent (W/O), co-emulsifying agent, emollient, stabilizing agent and opacifying agent in personal care formulations.
- Finds applications in antiperspirants, bath additives, cleansing wipes, daily wear sun care, facial color cosmetics, hair colorants, hair conditioners, shampoos, shaving products, skin creams & styling aids.
- Used as a solvent in pharmaceutical formulations including oral, injectable & topical formulations.

Storage: To be stored in original packing in a shaded warehouse away from heat & direct sunlight.

Shelf Life: One year from the date of production if stored under above mentioned storage conditions in unopened packaging.

Packing: 25kg paper bag laminated HDPE

Additional Information: MSDS \ Non-Allergen \ Non-GMO \ HAACP certificates available upon request
