

**Product: FINESTER EP 6016**

**CAS Number: 29806-73-3**

**INCI Name: Octyl Palmitate**

**Description: FINESTER EP 6016 is a ultra-mild skin smoothening ester which is derived from raw materials sourced from vegetable origin and are one of the most frequently used raw materials in skin care and color cosmetic formulations.**

**Specifications:**

Appearance	Clear liquid
Acid Value	1 Max
Saponification Value	130 - 160
Iodine Value	3 Max
Sp.Gravity (25°C)	0.840 - 0.870

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

**Applications:**

- Finester EP 6016 acts as a good moisturizer and emollient in personal care formulations like skin creams, lotions and sunscreens.
- It has a 'dry-slip' feel that is very similar to those exhibited by silicones and is widely used in skin care formulations to adjust the consistency.
- It is used in many color cosmetic formulations as a solvent, pigment wetting agent etc. Also acts as a good fragrance fixative.

**Storage:** To be stored in original packing in a shaded warehouse away from heat & direct sunlight.

**Shelf Life:** One year from the date of production if stored under above mentioned storage conditions in unopened packaging.

**Additional Information:** MSDS \ Non-Allergen \ Non-GMO \ HAACP certificates available upon request
